CAREER OBJECTIVE

Recent Information Technology graduate with a tech-savvy mindset and a strong foundation in networking, Linux administration, and software development. Experienced working in a Linux Ubuntu environment during my internship and skilled in troubleshooting, backend systems, and RESTful APIs. Passionate about learning new technologies and eager to begin my career in the IT industry by applying my analytical, problem-solving, and technical skills while contributing to organizational success.

EDUCATION

August 2022 - April 2026
System Plus College Foundation - Angeles City, Pampanga.
Bachelor of Science in Information Technology

EXPERIENCE

August 2025 - November 2025
Cloudstaff - Associate Software Engineer Intern

- Worked in a Linux Ubuntu development environment.
- Performed API testing, troubleshooting, and debugging using Postman.
- Participated in Agile ceremonies, code reviews, and collaborative problem-solving.
- Contributed to SharePoint document management and backend system enhancements.

PROJECTS

BillZilla - Associate Software Engineer Intern
Tech: Lumen, Laravel, MySQL, Docker, Angular, Playwright

- Tested and validated backend APIs to ensure system reliability.
- Investigated and resolved application issues through debugging and log analysis.
- Collaborated with the development team during Agile sprints and code reviews.
- Developed secure backend features for document storage and retrieval using SharePoint.

TECHNICAL SKILLS
